Galgorm Resort & Spa, Ballymena  
9th-11th May 2017

Join us for an exclusive opportunity to be immersed in the CEM community at the CEM Systems Conference 2017.

We invite you to **explore the possibilities** with CEM Systems as we explore industry trends in access control and security management; explore our latest product developments and releases; and explore our future roadmap.

The Conference will give you the opportunity to engage with the CEM Systems and Tyco Security Products teams, as well as a range of CEM's worldwide customers, dealers and industry consultants. Throughout the Conference you will gain new levels of insight into the access control and security industry, learn more about the AC2000 security management system, explore the latest CEM product developments and releases and get a valuable insight into future product roadmaps. The CEM Conference will give you the opportunity to hear case studies of innovative projects from CEM customers around the world. While insightful and helpful the CEM Conference also aims to educate, providing options for refresher training and giving you ample opportunity to have live product demos of AC2000 software and hardware. providing options for refresher training and giving you ample opportunity to have live product demos of AC2000 software and hardware.
