

AC2000 Lite Software Virtual Kit

Key Features

- Virtualised AC2000 Lite available as Software-only installation kit or supplied pre-installed on Windows-based PC hardware
- No need to install dedicated AC2000 Lite System Server hardware
- Flexible backup functionality, keep copies of the AC2000 Lite virtual image file
- Automatically installs the virtual environment and the AC2000 Lite software
- No additional configuration needed
- No licence fees required

The AC2000 Lite Software Only Virtual Kit option allows users to run the complete AC2000 Lite access control system within a virtual environment, running on a Windows 10 PC.

AC2000 Lite Software Only Virtual Kit is supplied as two CDs; one for the AC2000 Lite Workstation and one for the virtual AC2000 Lite System Server which is a preinstalled and pre-configured VirtualBox® virtual image.

Oracle® VM VirtualBox is installed on an existing Microsoft Windows 10 host operating system as an application; this host application allows a guest operating system such as AC2000 Lite Virtual System Controller, to be loaded and run within its own virtual environment.

AC2000 Lite Virtual Server Software is also available installed along with AC2000 Workstation software and pre-configured on Windows based PC hardware.

Benefits

- Virtualised AC2000 Lite System Server
- Runs on a dedicated or mission critical Windows 10 PC platform
- Single box solution: AC2000 Lite System Server can be installed on the same PC as the AC2000 Lite Workstation
- AC2000 Lite workstation
- Installation procedure automatically configures and installs the VirtualBox environment along with the AC2000 Lite software
- No need for extra configuration or specialist knowledge of VirtualBox environment
- Keep a copy of the AC2000 Lite virtual image for quick backup and restore in the event of failure.

Requirements

AC2000 Lite v10.0 software & upwards
